Step-by-Step Instructions for Completing
The UB-92 Claim Form
For MaineCare Covered Services

Introduction

The UB-92 claim is a billing form maintained by the National Uniform Billing Committee (NUBC). Each payer, including MaineCare, has different requirements for completing specific parts of the claim form.

The MaineCare instructions are adapted from the UB-92 manual developed by the NUBC and approved by the State National Uniform Billing Committee in Maine. For contact information about the NUBC and its manuals, go to http://www.nubc.org/about.html and for information about the State Uniform Billing Committee in Maine go to http://www.aahamme.org/contact.php. You must have the UB-92 manual to follow these instructions. In many Form Locators (FL), you are asked to go to the UB-92 manual for specific codes or other information.

You are responsible for obtaining your own UB-92 forms; the Maine Department of Health and Human Services (DHHS) doesn't provide them. You can buy the forms at office supply centers and from other sources including:

> U.S. Government Printing Office
> Mail Stop: IDCC
> 732 N. Capitol St. NW
> Washington, DC 20401
>
> http://www.gpo.gov/

Required, Not Required, and Hospital Only Form Locators

In these instructions, FL is Form Locator.

Form Locators that are not shaded are required for all or most providers. You'll see a notation in the Form Locator if it is required for only certain providers, such as Hospitals or if that Form Locator refers to information entered elsewhere in the claim.

This is an example of a Form Locator required for all providers:

Required:

> **FL 15: SEX**
>
> | 15 SEX |
> | --- |
> | |
>
> Enter the patient's sex as M or F.
>
> *Example:*
>
> | 15 SEX |
> | --- |
> | F |

Form Locators that are not required are shaded.

> **Not Required**:
> This is an example of a Form Locator that is not required for any provider:
>
> > **FL 31:**
> >
> > | 31 |
> > | --- |
> > | |
> >
> > Not required.

Please note, although some Form Locators are not required, they are also not shaded. This is because DHHS recommends that you enter special information in these Form Locators. This optional information, such as the patient's account number, will help you in your recordkeeping.

Also check the Special Instructions to see if your provider type is **<u>not</u>** required to complete a Form Locator.

Unless these instructions say that a Form Locator must be left blank, you may use Not Required Form Locators for your own business purposes.

You May Need Special Instructions

Some providers who use the UB-92 form need to follow specific instructions for certain Form Locators. If you are a specialty provider, look for *Special Instructions:* and the appropriate icon for you:

AFC Adult Family Care Homes

ICF-MR Intermediate Care Facilities-Mental Retardation

NF Nursing Facilities

PDN Private Duty Nursing

PNMI Private Non-Medical Institutions

Examples and Additional Help

The instructions for each required Form Locator or field within a Form Locator include an example of what the completed Form Locator or field should look like. In some Form Locators that have special instructions for specific providers, there are additional examples.

The instructions also give you important information and help.

☞ **TIP:**
Additional Tips on Filing

Here's other important information you need to know before you begin filling out your form:

> In addition to the National UB-92 manual, in order to complete the UB-92 form, you must have current CPT (Current Procedural Terminology) of the American Medical Association, ICD-9 (International Classification of Diseases) Diagnostic Codes, or HCPCS (Healthcare Common Procedure Coding System) Codes maintained by the Centers for Medicare and Medicaid Services.
> Or,
> Use the Procedure Codes in Chapter III of the *MaineCare Benefits Manual* policy section under which you bill. You may access these codes at the following website: http://www.maine.gov/sos/cec/rules/10/ch101.htm

The required format for a birth date is MMDDYYYY. (Example: January 19, 1947 = 01191947)

The alternative date format for dates of service or signature dates is MMDDYY. DHHS will process your claim if you use that format, but we recommend that you transition to the eight-digit Y2K-compliant format.

Whether you fill in your claim form by typing, computer, or handwriting, keep all information within the designated FL. **Do not** overlap information into other form locators. Handwritten claims must be legible.

Definitions:

Void – deletes the claim or claim line.

Example: If you submit a claim for date of service 12/01/2005 and later realize that you actually saw the member on 12/02/2005 you would void that claim by putting an 8 as the third digit in FL4 and the header TCN of the original claim in this FL. You will receive a remittance statement from MaineCare showing a negative balance because MaineCare took back the original payment. You can than rebill the correct date of service on a new claim form.

Replace – this function voids the original claim and processes the information in FL 42 – 47 as a new claim.

Example: If you submit a claim for July and later receive a rate letter that you have a rate increase effective in July you would put a 7 as the third digit in FL 4 and the original TCN of the header or line in this FL and the corrected information in FL 42 – 47. The system will take back the original payment and process the new information and you will receive a remittance showing a payment for the difference between the original payment and the new claim.

))) **ALERT:**

The TCN is the 18-digit code located in the second column on your remittance advice (RA) statement. If you are adjusting a single line item, you must change the last 0 to 1, 2, etc., to reflect the line that you want to void or to replace.

☞ **TIP:**

MaineCare will only accept one adjustment per claim form,

☞ **TIP:**

Nursing Homes must adjust the whole claim because of cost of care.
